

Kate persistently craved Alex's body, as if purging every suppressed desire she had ever held.

Her fierce hatred for him and her will for a re-investigation had long since been diluted by pleasure and evaporated.

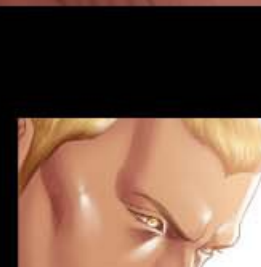

Now that it was clear everything was a "misunderstanding" caused by her brother, she had no more reason to feel repulsion toward him. Kate indulged in his body and savored the ecstasy until her physical strength was completely depleted.

As they repeated the act, an unknown sense of awe toward him began to bloom.

This was because Mei had removed her negative emotions toward Alex and reconfigured her brain to over-secrete oxytocin and serotonin the more she interacted with him.

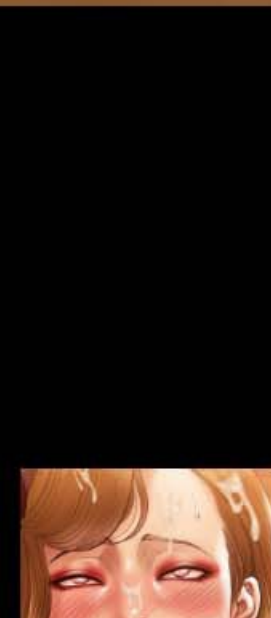

Before she knew it, the arrogant tone Kate had when she first entered the mansion was gone, and she was naturally using honorifics.

No matter how many times I eat it, I never get tired of this pussy. Khkhkh...

Since that day, Kate's body couldn't settle down.

Several times a day,
she masturbated while thinking of his cock—even at work.

She was caught by
Jane while secretly masturbating in the restroom,
unable to suppress her lust,

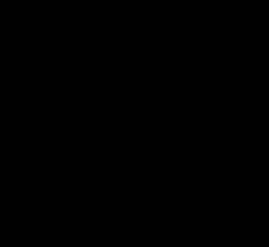

but Jane acted as if it were no big deal and said it was fine.

What's the big deal? Other female officers do it all the time whenever they're in heat. I do it in the office sometimes, too.

I-Is that so...?

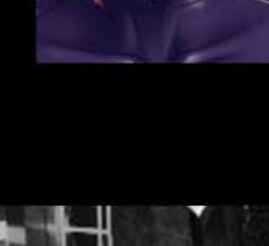

But just masturbating all the time isn't good.
Why do you think I built a 'Secret Room'?
There's nothing like a man to soothe that lust.

Kate's face turned red.
Jane stroked her cheek as if she found Kate cute.

By the way, we're planning to go to a club party with
our station staff tonight. Do you want to come?

A club? Where?

The prostitution club run by Alex.
The very place you once raided.

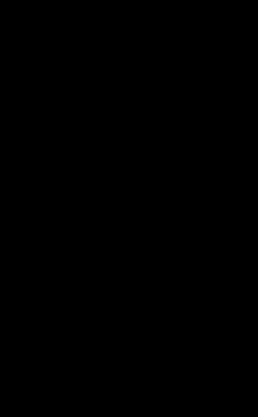

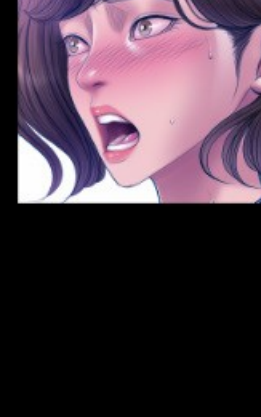

What?! That's ridiculous...!

Don't be so surprised. You and Alex have already done
everything there is to do, haven't you?
Why act so innocent?

Ah...! H-how did you...

Alex's cartel has now become a reliable sponsor for our station. The luxury items placed on your desk were also from them. From now on, we'll be participating in a massive business that can't even be compared to trivial toys like those.

.....

Even though Jane was shamelessly talking about colluding with the cartel to seek criminal profits, Kate couldn't say a word in response.

Rather than a sense of duty or justice as a police officer,

the anticipation for the party of carnal pleasure was dominating her.

Bullshit.

He ain't your husband, it's weird for him to bring up things like that at all.

Do I really have to wear such a vulgar outfit to be in your club?

Yeah.

That's the dress code here.

No exceptions.
