## Chapter 7

I walked away from the conversation, honestly, frightened.

*Impossible... Surely... There was so much food there.*

I tried to let it slip out of my head, it was proving difficult.

*What is going on with her...*

Thinking about how much she had changed in the past number of weeks was all I could imagine.

*What would this meal do, what would the next do?*

The shower was a great place to think, the clarity I would find in white noise of the water hitting the floor. My tranquillity was compromised when I heard the bathroom door open.

“Babe?” I called out. “You okay?”

There was no answer, I stopped showering and slowly opened the curtain for the shower.

Ellie was standing there, her hand in the small of her back, her belly ridiculously bloated, her face was in awe at her own stomach before she turned to me with a devilish grin.

“Di... Did you... Finish?”

She nodded, practically beaming.

“Looks like a... Lot...”

“I’ve been telling you Dan... I’m ravenous.” Her hand came to her stomach, and she started

to rub and caress it.

“I mean... You have been eating a bit more...” I was walking on what I thought was dangerous ground.

“You’ve noticed.” Ellie looked down at her bulging stomach and then back to me. “Well... Yeah...”

Ellie took another step forward and pulled the shower curtain open and took a step towards me, thanks to the raised height of the shower, she was halfway down my chest, a glance down and she saw my dick. Her hand grasped it and started to massage it.

“Say... Dan... You don’t mind, do you?”

I struggled to form a sentence as my cock started to swell in her hand. “Mind... Ugh... Wh-... What do you mean? Fuck...”

“You don’t mind me eating so much that I’ve outgrown my bra?” Ellie squeezed her boobs together with her arms and continued to stroke my throbbing erection.

“I d-”

“Twice.” She cut me off.

I raised an eyebrow at her smiling face. “Twice,” She repeated. “I’ve outgrown two bras... And as you can see by this one, it doesn’t have much time left...”

My knees started to tremble.

“Fuck Dan... I’ve never felt you so hard...” She cooed.

“I...”

“Shhh” She hushed me. “Who doesn’t like big boobs?” Ellie pulled her top down and let her breasts pop out of her top, still in their ill-fitting bra, she continued to stroke.

“They do look big huh?” She moaned as she worked me.

I grunted, signalling I was close, there was no way I could hold back against her words.

Just before I could erupt, Ellie buried my cock into her cleavage and watched my awestruck face as I exploded between her bigger boobs. I had to balance myself on the wall behind me

to keep myself from falling over.

“I’ve always wanted to do that…” Ellie said, looking down at her message cleavage.

“Me… Too…” I panted.

“You best hurry if we want to get on the road and miss the traffic, and now, I’ve got to clean up too.”

“Sorry.”

Ellie pulled me close and planted a kiss on my lips. “It was worth it.”

*Most definitely.*
